

Client Contact:
Mr. Dan Maples
City of Edgewater

Services Provided:

- **Materials Testing**
- **Repair Recommendations**

Project Summary:

Cesare, Inc. (Cesare) conducted materials testing for several alleyways in Edgewater, Colorado. The materials testing included proof roll observations and asphalt density tests. In addition, subsurface conditions of the roadways were evaluated by drilling five borings. Cesare determined the deterioration of the roadways' pavement and recommended areas of pavement repair and reconstruction.
