**Cesare, Inc. names K. Craig Vaughn, P.E.
Director of Operations and Business Development**

CENTENNIAL, Colorado; February 22, 2016 – Cesare, Inc. (Cesare) is pleased to announce that K. Craig Vaughn, P.E. has joined the firm as its Director of Operations and Business Development. Mr. Vaughn will help drive performance, growth, and market diversification efforts, and work with the leadership team to achieve Cesare's vision: Legacy in Great People and Great Work.

Mr. Vaughn has over 30 years of operational leadership with top firms in the engineering, environmental and natural resources arena. For the past 7 years much of his time has been committed to executive leadership and business development at a nationwide and international level.

"Craig has been a valued advisor to our firm for several years. He places a high value on company culture, durable business practices and exceptional professional service. He shares our vision and looks forward to reconnecting with many of his former business partners, associates and clients here at home in Colorado," noted William Caires, President, Cesare, Inc.

Mr. Vaughn is a registered Professional Engineer in Colorado, Montana, Alaska, Kansas, Missouri, Oklahoma and Arkansas. He earned his BSCE and post graduate studies in Geotechnical and Environmental Engineering from the University of Kansas.

He and his wife Cindy live in rural Boulder County, Colorado.

Incorporated in 1987, Cesare, Inc. is a consulting engineering firm specializing in geotechnical engineering, engineering geology, forensic investigation, expert testimony, construction observation, and materials testing.
